

## Asteroid UI Usage/Implementation Guide

Next to each element at the top section of the UI have changing Text displaying the percentage of the asteroid that the mineral makes up. For example:

Above the two Icons the amount of wealth the asteroid will add to a planet is given (above the wealth icon) and the percentage population loss (above the population Icon). For Example:

GOLD 20%

IRON 5%

ICE 10%

CARBON 60%

WATER 5%

NICKEL 0%

+20

-8%
